Strategy Guidance

How to put on, use, take off and dispose of a mask

- Before putting on a mask, clean hands with alcohol-based hand rub or soap and water.
- Cover mouth and nose with mask and make sure there are no gaps between your face and the mask.
- Avoid touching the mask while using it; if you do, clean your hands with alcohol-based hand rub or soap and water.
- Replace the mask with a new one as soon as it is damp and do not re-use single-use masks.
- Change out cloth face coverings frequently and launder them when they are soiled or wet.
- To remove the mask:
 - remove it from behind (do not touch the front of mask);
 - if single use, discard immediately in a closed bin; if reusable, bag soiled face covering until it can be laundered
 - clean hands with alcohol-based hand rub or soap and water.

You should not become complacent with other protective measures:

- Do not touch the cloth covering or face.
- Continue to be vigilant with thorough and frequent hand washing with soap and water, or alcohol-based hand sanitizer of 60%+ alcohol.
- Practice respiratory etiquette and cover your coughs or sneezes.
- Practice social distancing – even when wearing masks.

“We live in a world in which we need to share responsibility. It’s easy to say, “It’s not my child, not my community, not my world, not my problem.”

Then there are those who see the need and respond. I consider those people my heroes.” – Mr. Fred Rogers
